📍 Kadma, Jamshedpur, Jharkhand

👤 Career Objective

"Driven by over 8 years of experience in electrical engineering education, my career objective is to apply my comprehensive understanding of electrical principles and a passion for pedagogy to cultivate the next generation of engineers. I aim to develop and deliver engaging, student-focused learning experiences that foster analytical skills and professional development. Committed to continuous learning in the field and educational best practices, I seek to collaborate with faculty and contribute to a department's goals by enhancing course content and promoting an enriching academic atmosphere."
